## Professional Summary

Results driven **AWS Certified DevOps Engineer** with **2.2 years** of experience automating **pipelines**. Proficient in **AWS, Jenkins, Docker, Kubernetes, Terraform, and Ansible**, with a proven ability to **reduce deployment time by 40%** and **cut cloud costs by 25%**. Adept at working in **agile environments** to deliver **scalable and secure systems**.

## Tools and Technologies

- **Cloud Platforms:** AWS (EC2, IAM, S3, VPC, ELB, Route 53, CloudWatch, Auto Scaling)
- **CI/CD Tools:** Jenkins, GitHub Actions
- **IaC & Configuration Management:** Ansible, Terraform
- **Containers & Orchestration:** Docker, Kubernetes (EKS), Helm
- **Version Control:** Git, GitHub
- **Build Tools:** Maven
- **Scripting:** Bash
- **Monitoring & Logging:** AWS CloudWatch, Prometheus, Grafana
- **Web Server:** Apache Tomcat
- **Operating Systems:** Linux (Ubuntu/CentOS), Windows

## Certifications

- **AWS Certified Cloud Practitioner** – Dec 2024  
Focused on AWS core services and security best practices
- **Docker & Kubernetes Bootcamp** – Apr 2025  
Hands-on training in containerization and orchestration using Docker and Kubernetes

## Professional Experience

### AWS DevOps Engineer

**Ellipse Technologies** – Chennai, India  
October 2022 – November 2024

### Project 1: Best Buy Tracking Services

- **Client:** Best Buy Co., Inc.
- **Role:** DevOps Engineer
- **Duration:** Nov 2022 – Apr 2023

- **Environment:** Git, Maven, Jenkins, Linux

### Roles and Responsibilities:

- Automated build and deployment pipelines using **Jenkins** and **Maven**.
  - Managed source code using **Git**, created branches, tags, and merges.
  - Integrated **Jenkins** with **Git** for SCM polling and Webhooks.
  - Created and managed **Docker Containers**, uploaded images to **Docker Hub**.
  - Deployed applications on **Apache Tomcat servers**.
  - Set up **master/slave configurations in Jenkins** for distributed builds.

### Project 2: Max Healthcare

- **Client:** Max Healthcare
- **Role:** AWS DevOps Engineer
- **Duration:** Apr 2023 – Oct 2024
- **Environment:** AWS, Git, Jenkins

### Roles and Responsibilities:

- Provisioned and configured **EC2 instances** using **AMIs**.
  - Managed **VPC, Security groups, ELB, S3, and Auto Scaling**.
  - Utilized **CloudWatch** for log monitoring, alarms, and performance tuning.
  - Automated **CI/CD workflows** using **Jenkins** and **Git**.
  - Reduced manual work by automating infrastructure with **Ansible**.

## Freelance Experience

WordPress Developer (Remote) | 2021 – 2023

- Built **8+ responsive websites** using **WordPress, Elementor Pro, and WooCommerce**.
- Integrated **payment gateways (PayPal, Stripe)**.
- Recently delivered **www.cedarclinic.co** for a healthcare client in Kuwait.

## Education

- **Master of Computer Applications (MCA)** – S.V. University, Tirupati | 2019 – 2022
- **Bachelor of Computer Science (BSc)** – S.V. University, Tirupati | 2016 – 2019

## Key Achievements

- **CI/CD Automation:** Reduced deployment time by **40%** using Jenkins pipelines.
- **Infrastructure as Code:** Deployed Kubernetes clusters using Ansible Playbooks.
- **AWS Cost Optimization:** Saved **25%** in cloud spend using auto-scaling and alerting.

## Language

- English (Fluent) | Hindi (Fluent) | Telugu (Fluent) | Urdu (Fluent)

## Preferences

- **Location:** Dubai, UAE
- **Availability:** Immediate

## Skills

AWS, Jenkins, Docker, Kubernetes, Terraform, Ansible, Git, GitHub, Linux, EC2, S3, VPC, CI/CD, CloudWatch, Prometheus, Grafana, Helm, Bash, GitHub Actions, Apache Tomcat, Maven
